# METAL EMBOSSEYER SERIES

## ME 1000 - 2000 2D DATA MATRIX

## IDEAL FOR LONG LIFE INDUSTRIAL MARKING APPLICATION

### 2D MATRIX BARCODE DURABLE EMBOSSED METAL PLATES

- ▶ Ideal for harsh post marking treatment of tags like sanblasting, painting etc.
- ▶ PVC or Mylar tags need to be regularly replaced causing lost time, identification error and high consumables costs.
- ▶ Tags are required to have a long working life and will be subjected to enviromental degradation
- ▶ Application where marking the component or items directly:
  - affect its mechanical integrity
  - is too difficult to achieve
  - is too costly (laser dot peen)
  - too time consuming affecting production efficiency
