

Clincher® IV & V Wristbands

Color-Coded & Tamper-Evident Durable Photo ID Wristbands

Our Clincher IV and V inmate ID wristbands have highly visible colors that allow you to color-code and categorize inmates by offenses, risk status, medical conditions, etc. Constructed of multi-laminate material, these durable IDs can be fastened with metal or plastic fasteners and snaps.

Adding an inmate's photo aids in visual verification and can be printed on labels and securely sealed within the wristband. You can also clearly display the inmate's printed name and ID number on the same label, and include a variety of barcodes for quick scanning.

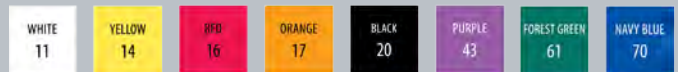

These heavy-duty, non-transferable wristbands remain on the inmates at all times including showers, sleep, exercise, and transportation to maximize security. The inmate's data and image are secured inside the wristband during the lamination process.

Clincher® IV (Striped 643)

Clincher® V (Solid 645)

Each box includes: 500 wristbands, 15 reusable carrier sleeves for the laminating process, and one of three fastener options:

Single-Piece Plastic Snaps

Light weight, comfortable & tamper-evident

Two-Piece Plastic Snaps

Original plastic snaps are durable & strong

Metal Dual-Grip Fasteners

Ultra durable (fastener tool required)

Clincher wristbands are most effective when used with recommended laminators and wristband sleeves:

4" Laminator (698)

Reusable Carrier Sleeves (695)

Sold in Packs of 25
